

## C – VITAL

### **C – VITAL** CAA/OCT2024/FA/06603 Coated Vitamin 'C'

C- Vital is the feed grade, stable, coated Vitamin 'C" specially made for aquatic animals. Vitamin 'C' is crucial for aquatic animals. As they cannot synthesis Vitamin 'C' themselves, it must be obtained through their diets. C-Vital is an essential dietary nutrient in Shrimp / Fish diets, ensuring outstanding bio-availability.

## BENEFITS

- ☞ Improve immunity of the shrimp / fish
- ☞ Reduce the negative impact of disease
- ☞ Improve the survival rate
- ☞ Eliminates stress
- ☞ Improve overall health of shrimp

## INGREDIENTS :

- ☞ C-Vital contain pure form of Vitamin 'C'- L-Ascorbic acid 2-monophosphate. Total phosphorylated ascorbic acid activity is equivalent to minimum 35%.
- ☞ C-Vital is used only for aquaculture purpose. Not for human consumption.

## DOSAGE AND APPLICATION :

- ☞ C-Vital mixed with feed at the rate of 5 g per kilo. Use available binder for effective application. Minimum one meal per day as advised by technician.

## PRODUCT FORM :

- ☞ C-Vital is in the form of Beige colour Powder.

## PACKING :

- ☞ C-Vital is packed in 1 Kg sealed standing pouch.

## STORAGE :

- ☞ C-Vital should be stored in a place below 25° C. temperature. Open pack should be resealed immediate after use.
