

Y-ORGAN

Y-ORGAN CAA/M16/FA/00512 (Hatchery Molting Supplement)

-  **Y-ORGAN** is a natural micro-nutrient product that provides a nourishing food source for the healthy growth of shrimp larvae.
-  **Y-ORGAN** promotes a more efficient conversion of each stage of shrimp larvae.
-  **Y-ORGAN** promotes natural and stress-free molting.
-  **Y-ORGAN** provides organic amino acids, trace elements, enzymes, and vitamins which can be easily digested and absorbed by shrimp larvae.
-  **Y-ORGAN** enhances the immunity of shrimp larvae and increases the survival rate.
-  **Y-ORGAN** is eco-friendly and is free of hormones, chemicals, and antibiotics.
-  **Y-ORGAN** is effective in a wide range of salinities and temperature.

COMPOSITION :

Protein 7.09%.

Amino Acid Complex:

Aspartic Acid	2.49 mg/g	Methionine	0.18 mg/g
Threonine	0.58 mg/g	Iso-leucine	0.52 mg/g
Serine	0.56 mg/g	Leucine	0.76 mg/g
Glutamic Acid	1.71 mg/g	Tyrosine	0.46 mg/g
Proline	0.29 mg/g	Phenylalanine	0.45 mg/g
Glycine	0.54 mg/g	Histidine	0.15 mg/g
Alanine	1.00 mg/g	Lysine	0.29 mg/g
Valine	0.68 mg/g	Arginine	0.24 mg/g
Cystine	0.46 mg/g	Tryptophan	0.20 mg/g

Vitamins:

VitaminB1	8.72 ug/100g
VitaminB2	4.76 mg/100g
VitaminB6	0.80 mg/100g
VitaminB12	0.81 ug/100g
Niacin	2.10 mg/100g
Pantothenic Acid	0.53 mg/100g
Folic Acid	7.47 ug/100g

DOSAGE AND APPLICATION :

-  Prepare stock solution by dissolving 1 ml of Y-ORGAN into 1 liter of sterile seawater.
Prepare stock solution every day as per the requirement.
-  Add stock solution at the rate of 100 ml per ton of larval tank water every day after addition or exchange of water, from Zoea to a day before harvest.

PRODUCT FORM :

-  Dark brown colored liquid.

PACKING :

-  Sealed plastic containers with 100 ml of product.

STORAGE :

-  Store products at a dry normal room temperature. Unopened bottles can be stored for 2 years if stored in a cool dry place.
